

# GLOBAL INSTITUTIONAL PROFILES PROJECT

2013 PROFILE:

VORONEZH STATE UNIVERSITY

## INTRODUCTION

*Thomson Reuters Institutional Profiles* Project creates accurate and comprehensive profiles of research institutions around the world.

With reliable and objective data on each institution, users of the data in these profiles and elsewhere are better equipped to:

- **Validate and quantify** executive and strategic decisions
- **Support marketing, publicity** and other promotional efforts
- **Supplement rankings and other assessment initiatives** with additional indicators of excellence

By working closely with a multitude of personnel from universities and other related institutions around the world, we have been able to create the richest, clearest profiles to date – portraits of facts and figures on research activity, funding, students, and staff, supported by verifiable indicators from Thomson Reuters, the most trusted information provider in the market today.

## ABOUT THE REPORT

This Profile supplements the Institutional Profiles data available in *InCites*<sup>™</sup> and is provided to organizations contributing to the institutional profiles project. It is based on data from three main sources: data provided by the institution directly to Thomson Reuters; data on the institution's publications and citations from *Thomson Reuters Web of Science*<sup>®</sup>; and the results of the annual Academic Reputation Survey.

For more information please see: <http://ip-science.thomsonreuters.com/globalprofilesproject/>

Thomson Reuters has conducted extensive validation of the data and applied powerful analytical techniques to interpret and present the data in a meaningful way.

This Profile and all data included herein may be used as a promotional and/or marketing device, as a management tool to be shared internally with colleagues for purposes of evaluation, or to provide institutional research executives with information on research performance. The information in this report may be used to assist students or faculty in the selection of your institution. You may use this report in the following ways:

Post it on your institution's website (see below)

Share with administrators at other institutions

Submit with research assessments or government and funding proposals

Please note the data tables and individual performance results are the property of Thomson Reuters. Use of any of the information must include the copyrighted Thomson Reuters logo that accompanies this report, as well as the following notice: "Thomson Reuters reserves all rights to the data and data should not be extracted, republished, redistributed or used for any commercial purpose."

## SUMMARY

We hope you find this report informative and look forward to many years of collaboration to improve our multidimensional approach to institutional profiling, data validation, and qualitative assessment. For over half a century Thomson Reuters has pioneered the world of citation indexing and analysis. All of our analytics tools and services are underpinned by the gold standard citation data in the *Web of Science*<sup>®</sup>. We are therefore uniquely positioned to help you and your institution make informed decisions about current and future research and organizational strategies. We look forward to continuing our partnership with you and welcome any feedback you may have.

The data presented in this report represent just a fraction of what you can obtain when you subscribe to *InCites*<sup>™</sup>, the web-based evaluation tool from Thomson Reuters. The next generation of the *InCites* platform enables you to access data from Institutional Profiles alongside both article-level and aggregated data and metrics to assess the impact and influence of people, departments, institutions, regions and publications within the broader research ecosystem.

This new, intuitive, integrated InCites environment makes supporting strategic decisions and initiatives easier with access to cross-referenced metrics and reports – all in a single place – to:

- **Benchmark & Analyze Output and Impact:** Build a comprehensive view into your organization's performance using unified data sources to evaluate output, performance and trends at the individual, department, institution and global level.
- **Build Profiles of Complete Scholarly Contributions:** Understand the full scope of your organization's contributions by building scholarly profiles based on our publishing and citation data. Then layer in your institutional data to track success within your organization more specifically.
- **Get Custom Data, Analysis & Reports:** Let our team of global experts provide you with meaningful and relevant interpretations and recommendations that support your unique challenges, from reports analyzing scholarship trends to custom studies and indicators.

**Find out more about the importance of citation metrics in assessing research performance and how *InCites* can support a broad range of institutional reporting:**
